

Singing Darwin

*Carol Burch-Brown
proof sheets*

These are sample proof sheets for a small portion of the still and video imagery used in Singing Darwin. The project involved editing from thousands of photographs and video clips taken in a wide variety of locations and conditions. Images are not in a particular order. Except where indicated images were made by Carol Burch-Brown.

locations and sources of imagery include:

nearby streams, forests, and meadows

high Andes and paramo region near Papallacta, Ecuador, 12,000-14,000 feet

cloud forests, Andes region near Yanayacu biological research station, Ecuador, 8,000-10,000 feet

Amazon basin jungle region near Jatun Sacha biological research station, Ecuador, 1476 feet

multiple locations and elevations above and underwater in Galapagos Islands, Ecuador

Atlantic Barrier Reef off Belize, Central America

Cambridge Zoological Museum, University of Cambridge, U.K.

Sedgwick Museum of Earth Sciences, University of Cambridge, U.K.

Christ College and other Darwin-related locations in Cambridge, U.K.

Down House, Darwin's house in Kent, U.K.

Virginia Museum of Natural History, Martinsville, Virginia

American Museum of Natural History, New York

Royal Ontario Museum of Natural History, Toronto, Canada

Armory Gallery Singing Darwin exhibition and 24-hour performance piece, Virginia Tech

salt water aquarium made by Tom Yancey

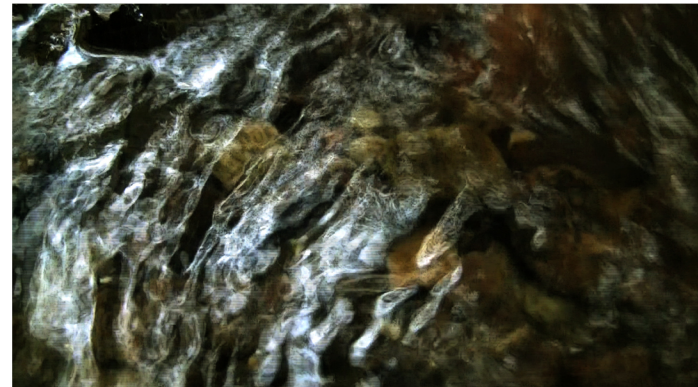

19th century scientific prints from the collection of Paul Stewart, Oxford, U.K., used by permission

other 19th century imagery from publicly available collections, including Darwin Online, a compendium of microfilm and historical images

proof sheet 01

*stills were made from
video clips used in
central projection
area, Singing Darwin.*

*shot in locations in
Yanayacu and
Jatun Sacha, Ecuador*

proof sheet 02
